

Equity Working Group

Regional Planning Working Group

Thursday, March 24, 2022

www.scag.ca.gov

Session Logistics

The meeting will take approximately two hours.

All participant lines will be muted.

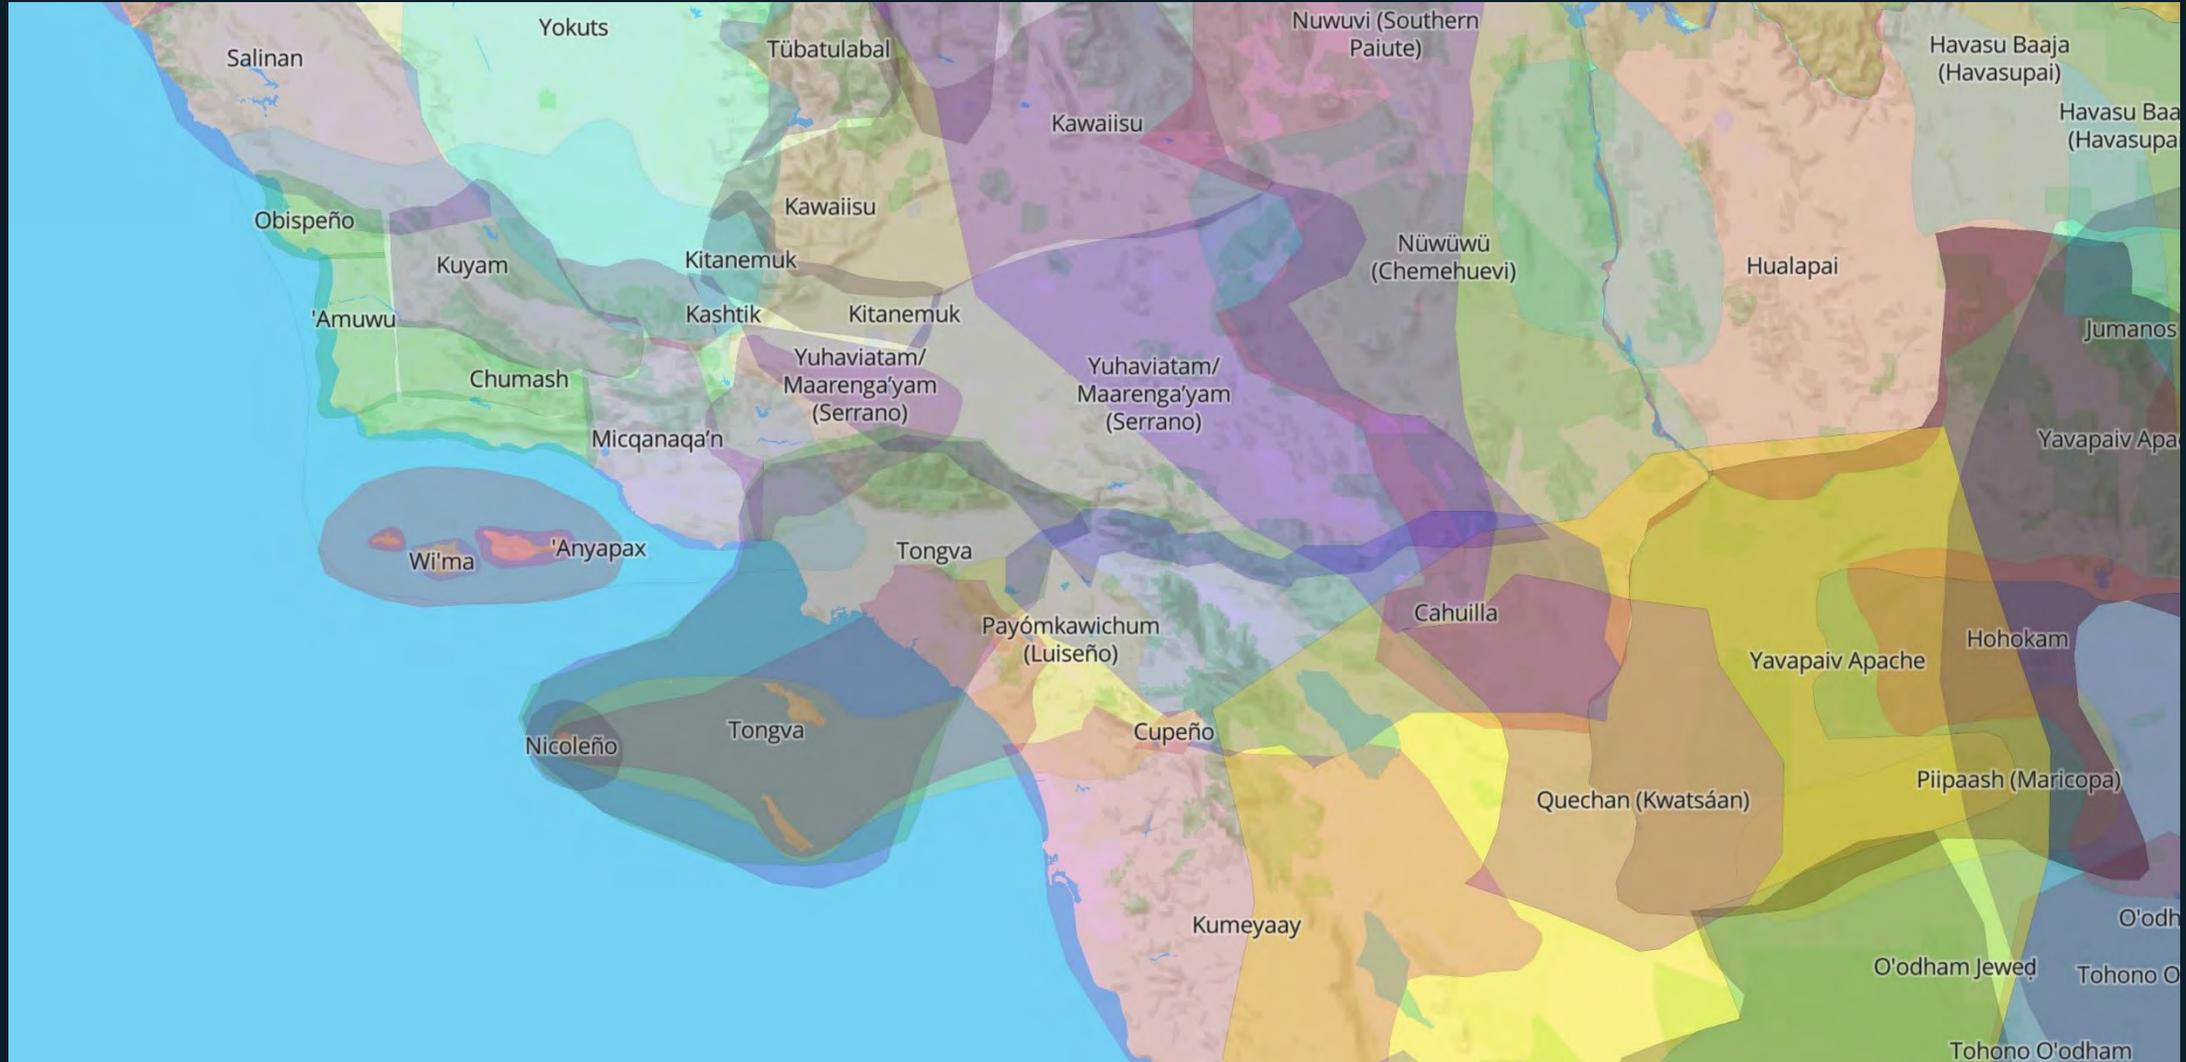

At the end of each presentation, there will be a Q & A. If you have a question, please type it into the chat box.

All presentations will be emailed to those who registered to participate in today's meeting.

Land Acknowledgement

Agenda

1. Welcome
• *Courtney Aguirre, Program Manager, SCAG* 1:00 – 1:05pm

2. Center for Social Innovation at UCR: Frameworks for Action on Inclusion and Engagement
• *Karthick Ramakrishnan, Professor at UC Riverside and Founder of Center for Social Innovation* 1:05 – 1:30pm

3. Equity Resource Guide
• *Courtney Aguirre, SCAG* 1:30 – 1:40pm

4. SCAG Connect SoCal Goals and Performance Measures
• *Courtney Aguirre, SCAG* 1:40 – 2:00pm

5. SCAG Baseline Conditions Update
• *Anita Au, SCAG* 2:00 – 2:10pm

6. SCAG Equity Analysis Approach (Formerly Environmental Justice Analysis)
• *Anita Au and Annaleigh Ekman, SCAG* 2:10 – 2:40pm

7. Announcements & Offers, Requests and Connections
• *Anita Au, SCAG* 2:40 – 2:50pm

Frameworks for Action on Inclusion and Engagement

Karthick Ramakrishnan
Presentation - March 23 2022

karthick@ucr.edu

@CSIUCR
#InlandInnovators

Implement the DNA framework to make the case more

- *Credible* (**Data**)
- *Meaningful and memorable* (**Narrative**)
- *Impactful* through collective, strategic work (**Action**)

Data: Key Concepts

Data: “Things known or assumed as facts”

Data can be

- Anecdotal or systematic
- Qualitative or quantitative
- Internal or External (SWOT)
- Useful for making a case, program design, implementation, and evaluation

Visualization is increasingly important

Narrative Change: Key Concepts

It is not only about messaging!

- Agenda setting is hard to do!
 - Collective, coordinated action can make a difference
- Framing
 - From "Big Idea" framing to story framing to messaging to soundbites
 - Think about competition/opposition
 - Information/awareness gaps provide opportunities

Action: Key Concepts, Trends

Advocacy is more effective when

- Federated
- Coordinated in ecosystem
- Connect grassroots to elite, outside and inside
- Range of tactics (protest, litigation, lobbying)
- Organizations have strategic capacity (Hahrie Han)

Civic Engagement

- Integrated Voter Engagement
- Power-building

Action: Key Concepts, Trends

Funding

- Diversification
- Social Enterprise

Innovation

- Identify gaps and opportunities
- Challenge: maintaining specialization and healthy competition alongside strong, collaborative ecosystem

DATA Recommendations, part 1

Disaggregate by race and gender whenever possible

- overcome data limitations through *spatial disparity analysis*, plus collecting *supplementary data* (quantitative and qualitative, survey and administrative)

Present county-level data whenever possible

- better understand intersection of regional equity, racial equity

Disaggregate by ethnicity for Asian Am, Pacific Islanders

- tailor solutions to tremendous variation across groups

DATA Recommendations, part 2

Visualization is key – Index measures of disparity can help

DATA Recommendations, part 2

Visualization is key – Index measures of disparity can help

Homeownership rates by race and county, SCAG Region

Group	Imperial	Los Angeles	Orange	Riverside	San Bernardino	Ventura	SCAG region
White	74%	57%	66%	73%	66%	71%	63%
Black	19%	37%	35%	49%	36%	52%	39%
Native Am	40%	45%	52%	56%	49%	53%	49%
Asian Am	61%	57%	64%	74%	71%	76%	61%
Pacific Islander	27%	39%	42%	69%	36%	52%	44%
Other	39%	50%	61%	61%	51%	60%	54%
Latino	55%	41%	39%	60%	55%	48%	46%
OVERALL	56%	47%	56%	65%	58%	61%	53%

Source: ACS via iPUMS

DATA Recommendations, part 2

Visualization is key – Hoover Index measure of disparity

Racial and gender disparities in homeownership, SCAG Region

Source: Calculations based on ACS via IPUMS

Update take on Index Measures (SME and SMI)

STANDARDIZED MEASURES OF EQUITY AND INEQUITY (SME AND SMI)

ABOUT THE MEASURE

Standardized measures of population-based equity and inequity that range from 0 to 100, representing the minimum and maximum possible values on each indicator.

The Standardized Measure of Equity (SME) of 0 and 100 represent no equity and full equity, respectively.

The Standardized Measure of Inequity (SMI) of 0 and 100 represents no equity and full equity, respectively.

Update take on Index Measures (SME and SMI)

STANDARDIZED MEASURES OF EQUITY AND INEQUITY (SME AND SMI)

PURPOSE OF THE MEASURE

Provide standardized measures of population-based equity and inequity that can:

1. operate across indicators such as college attainment, homeownership, poverty status, private health insurance;
2. operate across population groups based on race, gender, geography, and more; and
3. provide a range of 0 to 100 representing no inequity and extreme inequity, or its reverse—no equity and full equity.

Update take on Index Measures (SME and SMI)

STANDARDIZED MEASURES OF EQUITY AND INEQUITY (SME AND SMI)

CALCULATION BASED ON HOOVER INDEX

1. Standardized Measure of Equity = $(1 \text{ minus the Hoover Index}) * 100$, where 0 = no equity and 100 = full equity
2. Standardized Measure of Inequity = $\text{Hoover Index} * 100$, where 0 = no inequity and 100 = extreme inequity

NARRATIVE and ACTION Recommendations

Need regional and county narratives that are

- **More accurate** – updated with new economic, demographic realities
- **More inclusive** – whose stories are elevated?
- **More aspirational** – themes of resilience, sustainability, equity

Need intentional, strategic, and enduring actions for

- Equitable education and workforce training
- Equitable access to healthy communities (housing, air quality)
- Equitable access to lending, entrepreneurship support

Systems Change Framework applied to racial equity

Ready to RISE Framework for Projects and Programs

From concepts to indicators

Concept	Definition	Indicators
Readiness	Measurement of a community's workforce and infrastructural readiness, with respect to receiving new investments and completing projects in a timely manner.	Capacity and availability of workforce and supportive infrastructure
Resilience	The interconnected nature of system assets and processes, and how they can absorb, recover from, and continue, after some sort of a shock.	Flexibility, adaptability, agility, self-sufficiency, agency
Inclusion	The extent that communities are recognized and meaningfully included in decisions, plans, programs, and projects.	Breadth, depth, and stage of inclusion
Sustainability	The conditions that promote individual and community health and well-being, through improvements in environment, quality of life, and economic stability.	Improvements in environment (natural and built), quality of life, wages and benefits, consistency and diversity of funding
Equity	Extent to which investments, policies, and practices intentionally focus on improving outcomes among historically marginalized populations, and whether outcomes actually improve for those populations.	Inclusion of the following categories in the design/intentional action as well as measurable outcomes: geography, race, gender, sexual orientation, immigrant status, disability status, youth status, and other social categories meaningful to the project or program context

ISSUE REPORTS - SPRING 2022

**FUTURES SCENARIOS
AND POLICY
OPTIONS WILL BE
THE MAIN FEATURE
IN EACH REPORT**

WHAT ARE SCENARIOS? HOW ARE THEY GENERATED?

Scenarios for A Generic “TOPIC”

		<i>Second Critical Uncertainty Dimension</i>	
		<i>Possible Extreme Outcome</i>	<i>Opposite Possible Extreme Outcome</i>
<i>First Critical Uncertainty Dimension</i>	<i>Possible Extreme Outcome</i>	Scenario 1	Scenario 2
	<i>Opposite Possible Extreme Outcome</i>	Scenario 3	Scenario 4

MEGA SCENARIOS

		Social Environment	
		Enclaved	Inclusive
Economic & Political Institutions	Transformation	<p>1. Texas Done Right <i>Freedom, Choice, and Diversity – At a steep price</i></p>	<p>2. California New Deal <i>California's creates the running room for transformative progressive reforms</i></p>
	Inertia	<p>3. Protecting One's Own <i>"Going Local," with growing concentrations of wealth and poverty, segregation by race and ideology</i></p>	<p>4. Together in the Struggle <i>With limited bandwidth, coming together and making the best of a difficult situation</i></p>

QUESTIONS AND IDEAS?

Equity Resource Guide

Thursday, March 24, 2022

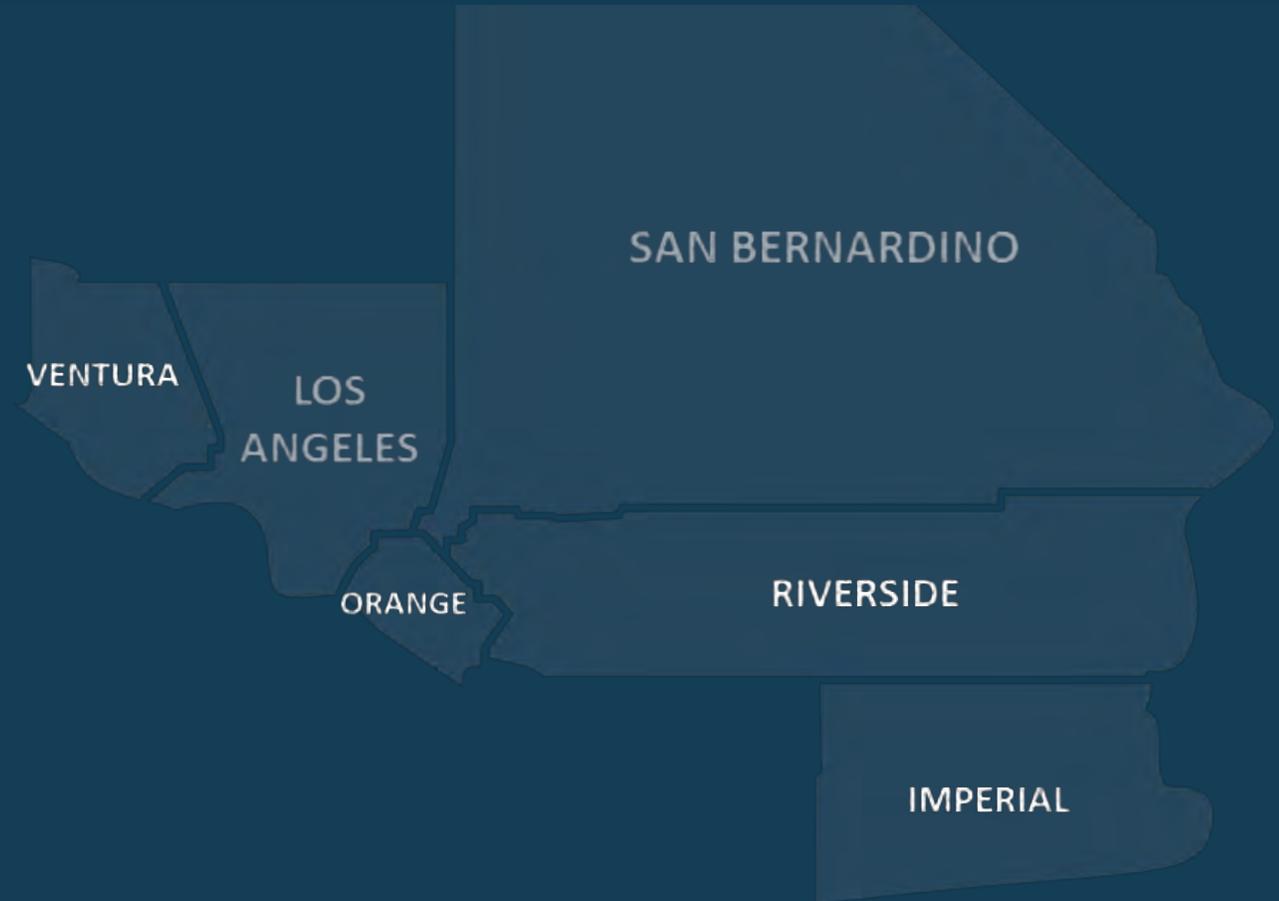

1:00 p.m. – 3:00 p.m.

www.scag.ca.gov

Equity Resource Guide Purpose

- Respond to requests for support or guidance on how to approach advancing equity
- Share a collection of **local, state, and national examples** of equity efforts
- Promote and **amplify best practices** for equitable and inclusive planning
- Encourage collaboration and implementation of these practices and approaches
- **Evolving resource**

Connect SoCal 2024

Draft Vision, Goals, and Performance Measures

Equity Working Group

March 24, 2022

www.scag.ca.gov

- **Vision Statement**
 - What do we want the region to become?
 - Where do we want to go?
- **Four Simplified Goals**
 - Mobility, Communities, Environment, and Economy
 - Further defined through sub-goals
- **Through lines**
 - Equity
 - Resilience

What kind of region do we want in 2050?

Working Drafts:

- **Option 1:** “A healthy, equitable and resilient region that works together to plan effectively for the challenges of tomorrow.”
- **Option 2:** “A healthy, accessible and connected region for a more resilient and equitable future.”

Build & maintain a robust transportation network.

- Support investments that are well-maintained and operated, coordinated, and resilient, and result in improved safety and air quality and minimize greenhouse gas emissions.
- Ensure reliable, accessible, affordable, and appealing travel options are readily available, while striving to enhance equity in the offerings in high need communities.
- Support planning for people of all ages, abilities, and backgrounds

Develop, connect, & sustain communities that are livable & thriving.

- Create human-centered communities in urban, suburban, and rural settings to increase mobility options and reduce travel distances
- Produce and preserve diverse housing types in an effort to improve affordability, accessibility, and opportunities for all households.

Create a healthy region for the people of today & tomorrow.

- Develop communities that are resilient and can mitigate, adapt to, and respond to chronic and acute stresses and disruptions, such as climate change.
- Integrate the region's development pattern and transportation network to improve air quality and reduce greenhouse gas emissions.
- Conserve the region's resources.

Support a sustainable, efficient, & productive regional economic environment that provides opportunities for all residents.

- Improve access to jobs and educational resources
- Advance a resilient and efficient goods movement system that supports the economic vitality of the region, attainment of clean air, and quality of life for our communities.

Connect SoCal 2024: Draft Goals Overview

- 1. Build & maintain a robust transportation network. (Mobility)**
- 2. Develop, connect, & sustain communities that are livable & thriving. (Communities)**
- 3. Create a healthy region for the people of today & tomorrow. (Environment)**
- 4. Support a sustainable, efficient, & productive regional economic environment that provides opportunities for all residents. (Economy)**

Connect SoCal 2024: Performance Measures

- Performance measures correspond to goals
- Evaluate plan's investments & strategies relative to goals
- Support ongoing monitoring of progress toward achieving goals & targets
- Address federal performance reporting requirements for transportation conformity, MAP-21, & Environmental Justice
- Address state GHG reduction requirements

Connect SoCal 2024: Draft Performance Measures - Mobility

- Major destination access
- *Job access*
- *Trip distance*
- *Mode share*
- Person hours of delay by facility type
- Person–delay per capita
- Truck delay by facility type
- Commute time
- *Travel time by mode*
- HOT Lane utilization
- Transit seat utilization
- Congestion bottlenecks

Connect SoCal 2024: Draft Performance Measures - Communities

- Percent of trips less than 3 miles
- Share of regional households located in HQTAs
- Percent of households located within 500' of high-volume roadways
- Public health issues & costs
- **Housing cost burden**
- **Accessory dwelling unit potential**
- **Ratio of infill residential to all new residential**

Connect SoCal 2024: Draft Performance Measures - Environment

- Vehicle Miles Traveled (VMT) per capita
- GHG emission reductions per capita
- *Criteria pollutant emissions*
- Total square miles of greenfield & rural lands converted to urban use
- *Parks access*
- Energy & water consumption per capita
- *Percent of households located within 500' of high-volume roadways*
- *Housing & populations most vulnerable to climate change impacts*

Connect SoCal 2024: Draft Performance Measures - Economy

- New jobs added due to transportation system investments and improved regional economic competitiveness
- Share of employment growth in HQTAs
- *Transportation system investment benefit/cost ratio*
- **Travel delay/cost relationship**

Feedback & Timeline

Questions for Feedback:

- Is there anything missing?
- How can we better integrate equity & resilience?

Timeline:

- **Now to April 2022:** Share draft goals & vision statement with Regional Planning Working Groups
- **June 2022:** Share draft goals & performance measures with SCAG Policy Committees

Thank you!

**Omitted in first draft*

Baseline Conditions Report Findings

Nearly half of Hispanic (Latino) households lived below 200 percent of the poverty line in 2018, the highest among all race/ethnicity groups in the region.

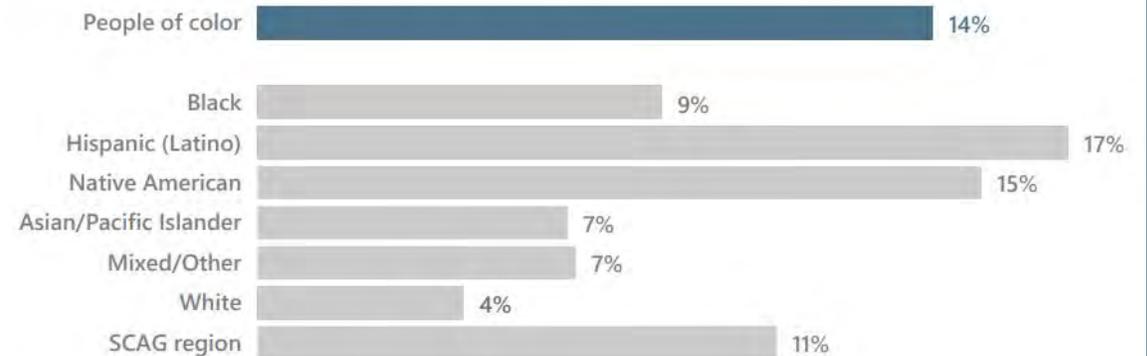

Source: IPUMS USA, National Equity Atlas

Black, Hispanic (Latino), and Indigenous residents are nearly **two times** more likely to live in poverty than white residents.

Full-time workers of color were **three times** more likely than their white counterparts to live in poverty in the region.

Full-time workers of color were three times more likely than their white counterparts to live in poverty in the region.

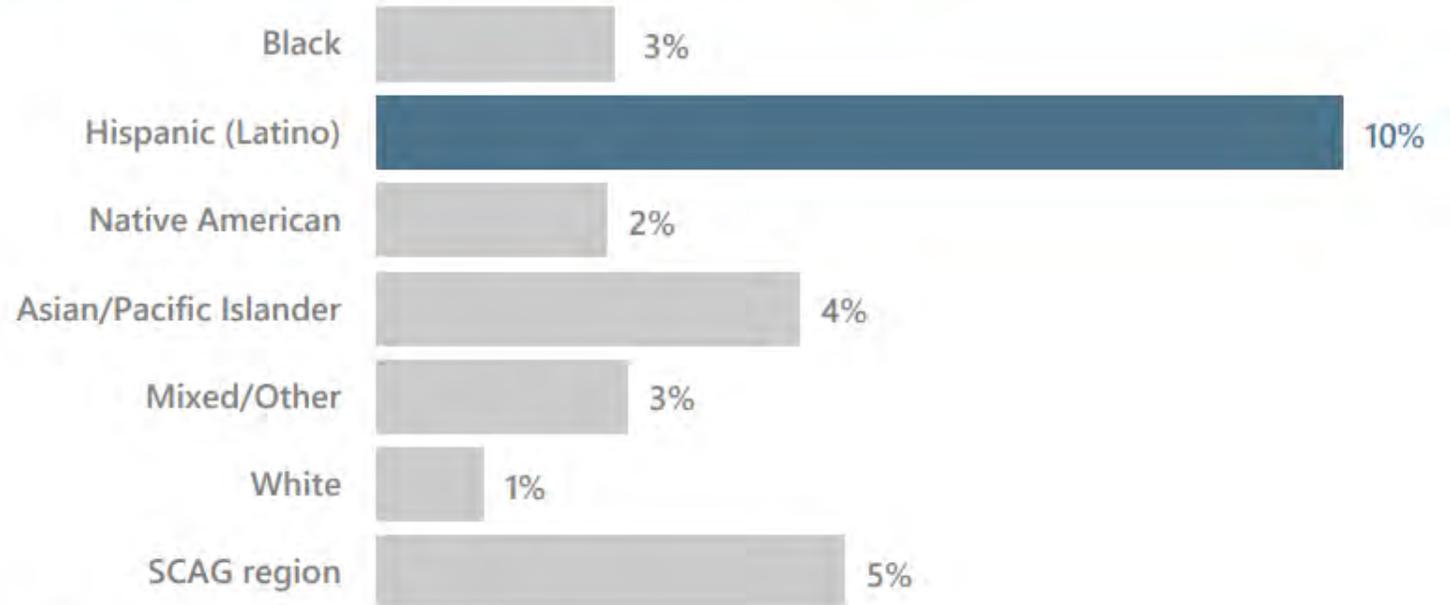

Source: IPUMS USA, National Equity Atlas

Baseline Conditions Report Findings

Hispanic (Latino) individuals are also **ten times** more likely of being in overcrowded housing than white individuals.

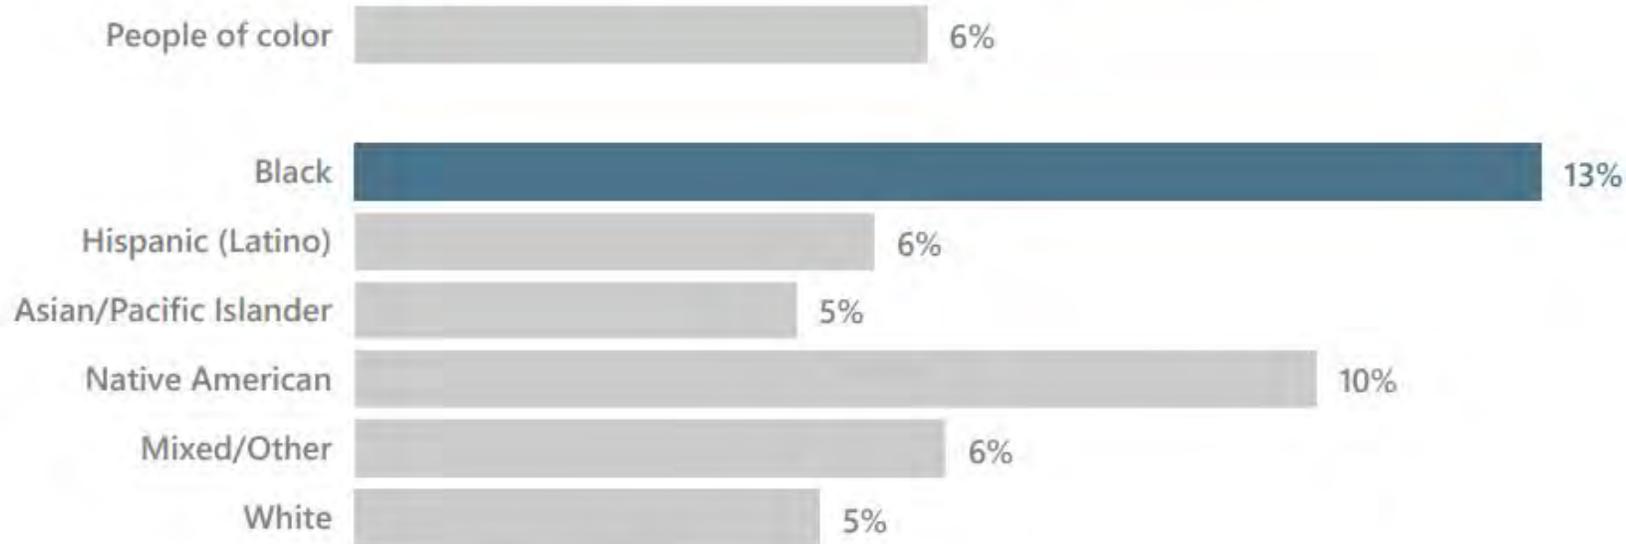

1 in 10 Hispanic (Latino) households are overcrowded.

Source: 2018 5-Year American Community Survey

Baseline Conditions Report Findings

Regionally, 1 in 8 Black residents do not own a car, the highest of any other race/ethnic groups.

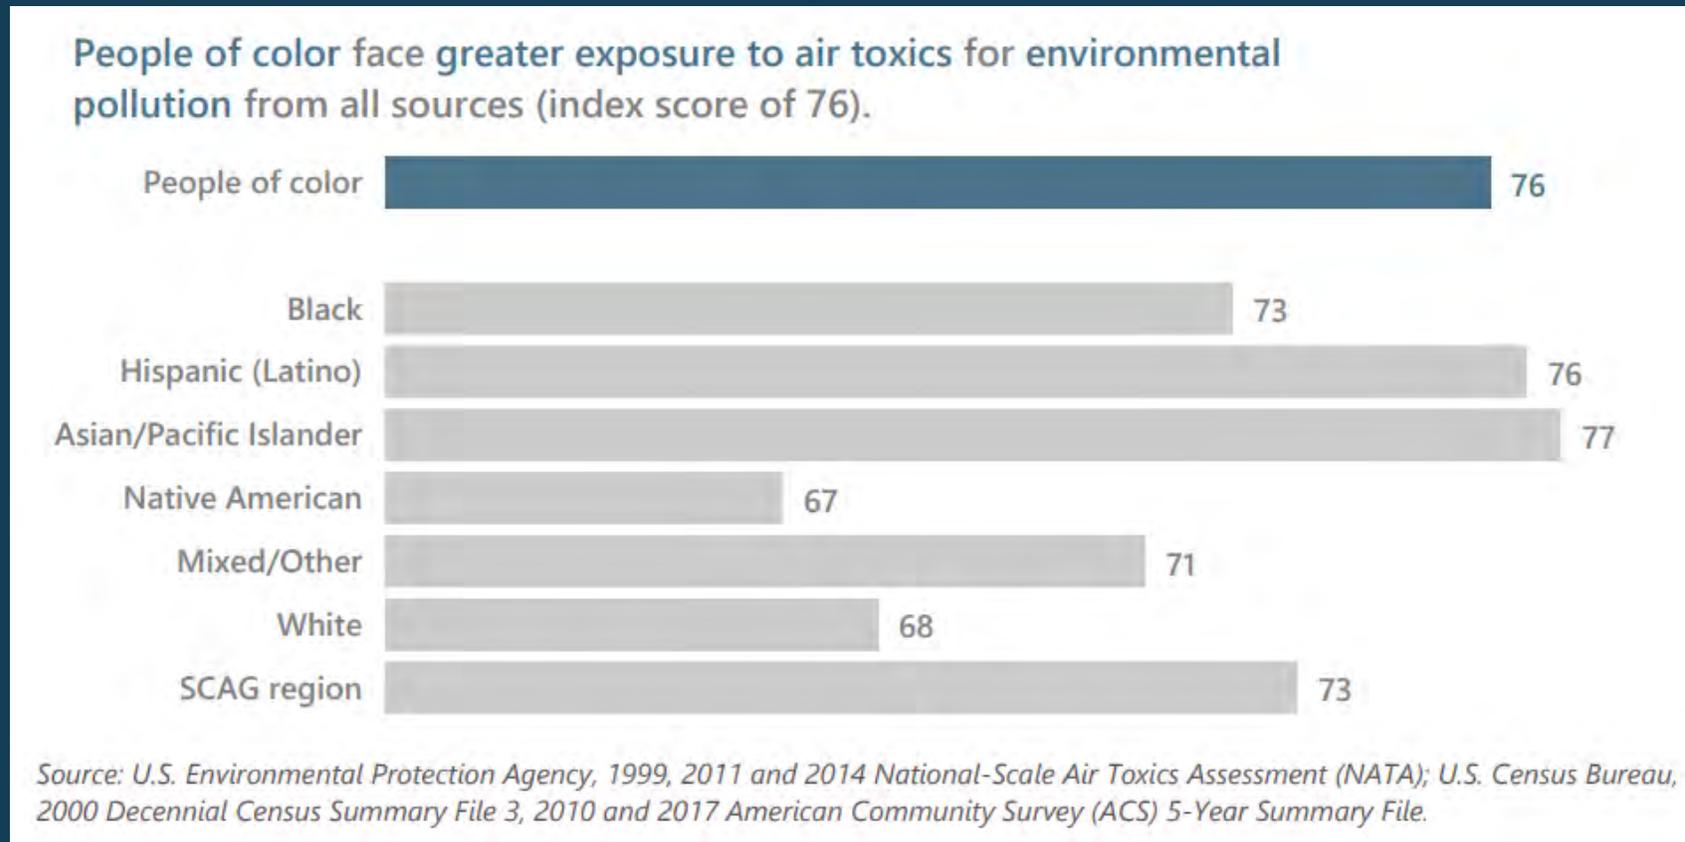

Source: National Equity Atlas, American Community Survey PUMS

Black residents are **two times** more likely of not own a car than white residents.

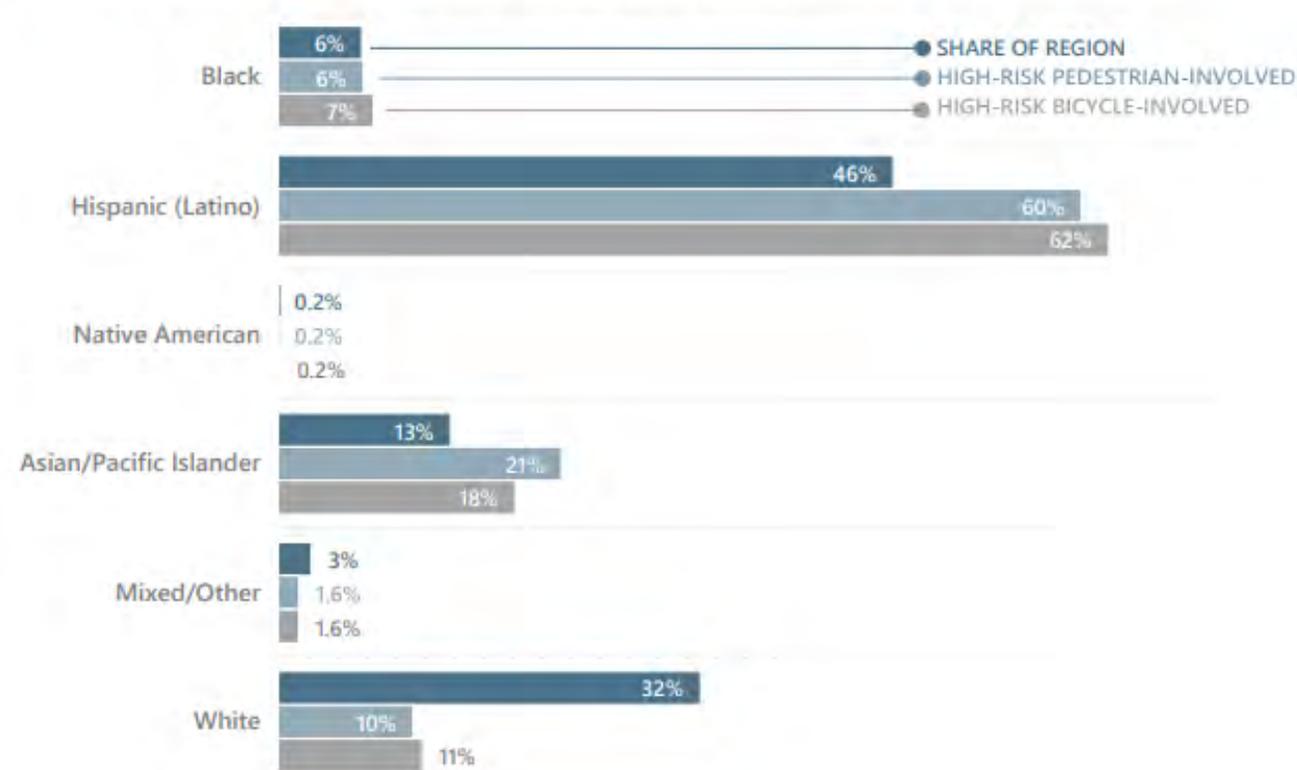

Baseline Conditions Report Findings

People of color face a **significantly higher** exposure to air toxics for environmental pollution from all sources than white residents.

Challenges and Limitations

Hispanic (Latino) residents are the most likely to live in high-risk areas for a pedestrian-involved (60%) or bike-involved (62%) collisions as compared to other demographic groups.

Source: SCAG, SWITRS, TIMS, 2016

Example of race/ethnicity categories and scale for mobility indicator, Bicycle and Pedestrian Collisions.

- **Defining indicators**
 - Race/ethnicity categories
 - Access to parks, employment, shopping
- **Data feasibility or availability**
 - Income inequality, Business ownership
 - Chronic disease rates, Hospitalizations
 - Access to grocery stores
- **Disaggregated data**
 - Race/ethnicity
 - Disadvantaged factors
 - Geographic scale

Offers, Requests, Connections

Offers

Has your agency been working on any equity-related work you would like to share?

Request

Are there any issues you have experienced since we met last that you would appreciate resources/support on?

Connection

Are you interested in connecting with other agencies around a specific topic?

Thank you!
See you in June 2022!

Courtney Aguirre (aguirre@scag.ca.gov)

Anita Au (au@scag.ca.gov)
